SLIDE

SLIDE

We Love

A small star in the constellation of design, SLIDE continues the path started back in 2002, producing on the outskirts of Milan, furniture, lamps and accessories, the result of continuous functional, aesthetic, technological and environmentally friendly research. SLIDE's objective has not changed over the years, always faithful to the idea of offering furnishing and lighting solutions with color, joy and emotions. Each product, in its uniqueness, is designed to respond to a need and become an icon over time. Sustainability remains at the center of our thought, a dutiful responsible legacy for future generations.

Marco Colonna Romano

After more than twenty years in business, we have updated our catalogue starting with a word that is dear to us: LOVE, which in Italian is AMORE, like our iconic bench. A thought that pervades our entire production, love for doing, and doing well, love for our territory and the people that make SLIDE a pioneer in the processing of plastics in furniture every day.
We create models, based on an initial project drawn up in-house or with internationally renowned designers, of furniture and lighting that make the places where our stories unfold more precious. Although still young, our story is that of a company born to create ideas and eureka moments that have since become our staples.

In 2002, Giò Colonna Romano founded SLIDE, wanting to create awe and wonder. The first eureka moment came even before the creation of SLIDE: simple shapes, like spheres and cubes, created with translucent materials, whose inner light bulb emits a uniform light that adds decoration. Simple yet magical. With thirty years of knowledge of plastic materials, we pushed ourselves further to unleash the full potential of rotational moulding, and this led to our second eureka moment of luminous furnishing, which soon became a must-have in the event industry. All of this has led SLIDE to become well-known all around the world.

1998

Giò Colonna Romano creates and produces the first luminous geometric shapes Globo and Cubo destined for use in gardens.

2002

FOUNDING OF SLIDE with the intention of entering the world of Design. The architect Guglielmo Berchicci is the Art Director and designs the first products, still in the catalogue today.

2005

Participation in the Abitare il Tempo and Light & Building trade shows. Participation in the Euroluce trade show.

2006

Birth of Jumbo Bar, the first illuminated furnishing that becomes extremely popular for events and thus a distinctive trademark of SLIDE.

2007

Opening of the SLIDE EVENTS division and first partnerships with internationally renowned designers. Marcel Wanders designs the Chubby Collection for SLIDE.

2009

Paola Navone designs the Low Lita collection for SLIDE. Karim Rashid's Koncord stool wins the Good Design Award.

2011

Creation of the SLIDE ART Collection and participation in the Biennale di Venezia. Opening of an internal painting line to offer lacquered products for the indoor market for a higher range of customers.

2013

Introduction of soft polyurethane collections, expanding the product range for contract orders. Presentation of Marc Sadler's Kami furnishing collection.

Throughout its history, SLIDE has been able to grow, innovate and stand out, offering complete furnishing for outdoors and for illuminating large spaces, residential and contract projects, but also small leading products for the home. With the generational change that began in 2015, Marco Colonna Romano, supported by a young, passionate team, transformed SLIDE into a designer brand for all intents and purposes, expanding the offer and combining the typical colourful pop products with an increasingly wide-ranging, refined line able to satisfy the tastes of architects and ideal for the hotel and contract sectors.

The resulting image is that of a young, innovative company based on sound principles since its inception: the high quality of Made in Italy and the continuous pursuit of excellence in rotational moulding technology. Playful shapes and colours are complemented by other materials, new tactile textures and shades and nuances that only SLIDE can create. Still deeply rooted in its birthplace – in Buccinasco, on the outskirts of Milan – where the offices and production hub are located, SLIDE has made a name for itself and its products in more than 130 countries around the world.

WE LOVE MAKING

2015 — Giò Colonna Romano design AMORE bench, very soon becoming a worldwide timeless icon.

2021 — Issue of the first sustainability report. Ambrogio service table by Favaretto&Partners is already a best-seller and the first product made of second-life plastic.

2023 — New collaboration in the art sector, launching Bunny, designed by the Japanese designer Aki Kuroda and curated by Yoyo Maeght.

2025 — Launch of AMORE OCEAN and REBORN collection.

2014 — Acquisition of the Design of Love collection and subsequent expansion.

2019 — Our concept "Contemporary Tradition" comes to life thanks to the collections designed by Lorenza Bozzoli, Fabio Novembre and Roberto Paoli. In this way, the industrial production and the craftsmanship get closer.

2022 — Our president & founder, Giò Colonna Romano sadly passed away. Its legacy of innovation, colors and happiness is forever engraved in SLIDE DNA

2024 — Presentation of Banana Leaf lamp designed by Marcantonio and part of Afrika Collection

We Love ITALY

Right from the outset, one of our goals has been to bring the quality, creativity and culture of Made in Italy design all around the world, using a material that allows us to show our full potential: low-density polyethylene, processed employing a method that aims to minimise partially harmful emissions. Thanks to the collaboration of all divisions with the research and development department, over the years, we have managed to combine the spirit of craftsmanship with industrial processing.
A line was therefore created where nuances and finishes become unrepeatable and every product is therefore unique. We want our Made in Italy design to be an ethical choice, where ideas and their creation take place all in the same building. Choosing a SLIDE product means choosing a sustainable design and putting beauty and quality within everyone's reach.

We Love SUSTAINABILITY

Bioplastic from Sugarcane

Recycled Polyethylene

Ecoallene from Tetra Pak

Our production is entirely carried out with a view to the ethical path of a circular economy. This starts with our rotational moulding technology, which minimises any potentially harmful emissions and has a low environmental impact. Furthermore, thanks to the installation of solar panels on our warehouses, we have made a real turning point in the use of renewable resources that make the company even more independent in terms of energy.

Made from 100% recyclable polyethylene, at the end of their lives, our products are returned to plastic powder, ready to be used for other 100% recycled furniture, particularly in Jet Black colour. Recycling also creates the most refined part of our collection, through product lacquering, the jewel in our crown.

Painting the surfaces of our products helps cover up any scratches or small imperfections that might appear during production and therefore to salvage them into much finer objects, with the same resistance as all the others.

Thanks to our Research and Development department and our suppliers, we have added new, more ethical and durable raw materials. In fact, Ambrogio, Amanda and Together are made with a new plastic, Geco, with 30% EcoAllene, a material entirely recycled from Tetra Pak cartons, which would otherwise be sent to incinerators. The Afrika collection, with its more textured colours, is made from bioplastic, a new material made from natural sugarcane fibres. AMORE OCEAN is also made in a second life plastic thanks to ropes and nets collected from the Ocean. In our collections, we wanted not only to look at the aesthetics of the product but also at the beauty of our surrounding world, which we want to preserve thanks to a low environmental impact.

Recycled Polypropylene from Marine Ropes

HOSPITALITY

HOTEL INDIGO - MILAN (ITALY)

Over the years, we have improved the comfort, along with the uniformity of light and the ergonomics of our products. We have therefore developed increasingly advanced furniture, we have played with textures and nuances capable of embellishing polyethylene, and we have researched into elements and accessories that would make our products really refined goods.

We have perfected our lights, so they can create even more striking atmospheres. This results in a range of complete furniture for every type of indoor and outdoor contract project.

EVENTS

SALONE DEL MOBILE 2024

Always at the side of designers, professionals, and private clients, SLIDE stands for creativity and originality in furnishing for unique and unforgettable events. Our furniture, especially our luminous pieces, is the perfect ally for creating stunning, scenographic setups.

With a wide range of versatile and customizable products, SLIDE can transform any space into an emotional experience. From retail displays to hotel and restaurant spaces, and even outdoor environments, our furniture provides that “wow factor” that leaves a lasting impression. Thanks to the lightness and durability of our materials, SLIDE’s solutions are ideal for those seeking easy-to-manage installations with a powerful visual impact. We are ready to collaborate with designers and event planners to create events that blend style, functionality, and luminous magic, providing tailor-made solutions for every need.

We Love ART

CHRISTIE'S CHARITY AUCTION
DESIGNER'S DREAM – SUPERSTUDIO PIÙ 2024

SLIDE Art is a sculpture project where Art and Design meet, combining their main special features: Design becomes higher conceptually, while Art becomes serially reproducible, in a limited number.

Thought and creativity therefore meet Italian craftsmanship, creating a new concept of Art, which shapes the material and turns it into sculptures produced in limited, numbered and certified pieces.

SLIDE Art is a hotbed of ideas where designers and artists can experiment with shapes, materials and concepts, supported by the expertise, knowledge and experience developed by SLIDE, in a dialogue that can combine a single work from two core elements, that of Design and Art, which are so similar yet so different. Alessandro Mendini, Karim Rashid, Anna Gili, Sacha Sosno, Jean Claude Fahry, Flavio Lucchini and Ben Vautier are just a few of the illustrious names that have taken part in the project.

MURANO HANGING

MURANO TIGE

From the ancient tradition of master glassmakers, Murano is a hanging lamp that, best of all, matches industrial series production with the wonderful imperfections of craftsmanship. With a special blend of plastic material, Murano has the iridescence of glass and each piece is unique, thanks to manual finishing. Warm light radiates uniformly thanks to the transparency of the material.

OTTOCENTO LAMP

Design
PAOLA NAVONE - OTTO STUDIO

category **floor lamp**
material **polyethylene**

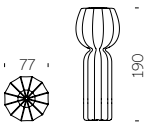

With its refined base inspired by Neoclassicism artistic movement and its rich-in-Arabesque-details lampshade, Ottocento Lamp is the new item of Ottocento collection created by Paola Navone. The ten-year collaboration with the designer led to the birth of the first floor lamp designed for SLIDE, ideal for lighting up indoor and outdoor spaces.

CUCUN

Design
LORENZA BOZZOLI

category **floor lamp**
material **polyethylene**

Good Design Award 2018

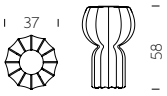

Inspired by the simple shapes of flowers, vegetables and bulbs, Cucun floor lamp merges perfectly with the Nature around it. Thanks to its strong decorative presence, it is ideal to furnish both domestic and commercial areas, both for indoor and outdoor spaces.

PUPA

Design
LORENZA BOZZOLI

category **table lamp**
material **polyethylene**

A sheet of ancient Japanese paper inspiration, which covers the whole surface, creates soft light effects. The particular structure, with its ribs, is a tribute to some icons of Italian design of the last century. Pupa table lamp is perfect for warm and refined atmospheres and contemporary indoor settings.

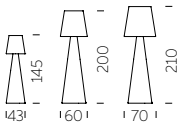

PIVOT

Design
SLIDE STUDIO

category **floor lamp**
material **polyethylene**

The linear design of Pivot collection is the result of the perfect mix between the conical shape of the base and the classic shape of the lampshade. The main characteristic of Pivot is the texture on its lampshade, which reminds of the classical arabesque motif: available in three different dimensions.
